Cisco® Room Kit EQ is an AI-powered collaboration device solution bundle that includes the multi-lens Quad Camera, the powerful Codec EQ computing engine, and an intuitive touch controller to enable true-to-life video conferencing on any platform. It integrates with multiple external displays, microphones, speakers, and other conferencing peripherals while providing unparalleled camera and audio intelligence to create more inclusive video meetings and rich content experiences from large conference rooms, boardrooms, training rooms, and auditoriums.

Certified for Microsoft Teams

UC AWARDS 2025 WINNER

Product overview

Cisco Room Kit EQ is a collaboration device bundle that is optimized for Cisco Rooms for Webex Meetings and powerful video interoperability with third-party meeting platforms, and will natively support the Microsoft Teams Rooms experience augmented with full-featured Webex meetings. This intelligent hardware offering delivers next-generation video and audio experience to enable more equitable and engaging meetings.

Room Kit EQ features the new Cisco Codec EQ, the ultimate AI-powered collaboration hub that brings more connectivity, support for next-generation AV over IP room accessories, robust computing power, and intelligence to modern meeting spaces. This is augmented with the multi-lens Cisco Quad Camera, which offers optimized, equitable camera views, high-performing UHD image processing, sharp focus, and stunning zoom capabilities.

Bring more equity and intelligence to your large workspaces

The system provides a distraction-free, elevated audio experience with a built-in speaker system, AI noise removal, and seamless connectivity with directional Cisco microphones and third-party audio systems so that everyone comes across loud and clear. Better still, it offers flexible configuration options via PoE, HDMI, USB and analogue connectivity to equip large spaces, stunning 4K content with industry-standard wireless sharing technologies, and powerful USB passthrough to turn your laptop into an instant studio with a single cable.

technologies, and powerful USB passthrough to turn your laptop into an instant studio with a single cable.

The Room Kit EQ provides optionality and extensibility with a highly modular setup to easily add touch controllers, cameras, speakers, microphones, and other room peripherals – easing the configuration and scaling of complex, multi-component audiovisual environments. This solution is rich in functionality and experience yet easy to deploy, maintain, and scale to your workspaces – and comes with unified cloud device management and workspace analytics in Control Hub.

Product features and benefits

FEATURE	BENEFIT
Inclusive, cinematic video meetings	• Powerful video conference device bundle optimized for large workspaces • Intelligent collaboration kit including the intelligent Quad Camera, the AI-powered Codec EQ, the Room Navigator control touch panel, and optional room peripherals • Integrated 80 MP camera system, loudspeaker system, and microphones (for speaker tracking) in the Quad Camera; available with other Cisco tracking camera bundles and can be extended with multi-camera scenarios. • Platform independence to run the full-featured Cisco Rooms or Microsoft Teams Rooms experience. • When configured for Cisco Rooms, it provides a seamless meeting-join experience for Webex meetings and third-party video interoperability with Microsoft Teams, Zoom, and Google Meet. • Sleek, elegant hardware design and intuitive software experience for more engaging and productive meetings • Brings optimized, inclusive camera views for more equitable video meetings, including Frames individual participant framing and People Focus on Webex dynamically optimized meeting layout. • Speaker tracking: Detects and provides a prominent view of the active speaker (with Quad Camera or Room Vision PTZ) • Automatic, AI noise removal blocks out disruptive sounds coming from the meeting room • Support for multi-camera Cross-view, Extended Speaker View, and Presenter and Audience view when deployed together with Cisco conferencing cameras for cinematic camera switching and enhanced equity for remote participants • 4K wireless content sharing via Webex, Miracast, and Apple AirPlay for exceptional presentations, or via a USB or HDMI cable
Workspace intelligence	• Uses ultrasound technology to automatically activate when someone walks into the room, and recognizes them through their mobile device • Supports the Cisco Room Navigator control unit: can be paired either with a table-stand controller, a wall-mount touch panel, or both in parallel for native conference controls, room controls, environmental monitoring, and room booking, and even direct access to your third-party workspace experience applications for space reservation, wayfinding, and digital signage • Provides intelligent people count based on presence sensors and custom macros, enabling alignment with safety guidelines and analytics for better resource planning • Enables smart customizations via macros and custom APIs, such as digital signage, custom alerts, and more to support internal communications, visitor management, safety, and well-being

© 2026 Cisco and/or its affiliates. All rights reserved.

FEATURE	BENEFIT
Smart integrations	• Can be paired with up to three screens to infuse crisp video and 4K content sharing into an immersive experience • Connect your laptop with Codec EQ via a single USB-C to use the camera, microphones, and speakers of the device for an instant BYOD experience • Supports dual content sources for local meetings • View whiteboard content and annotations shared from Cisco Board Series, Cisco Desk Series, or the Webex App • Automatic screen/display integration through HDMI CEC • Connects with up to 3x Room Vision PTZ cameras over IP, and up to 3 cameras over HDMI. In addition, the system works with USB cameras. • Integrates with up to 8x Cisco IP microphones (may require an Ethernet switch depending on the number of ports required) • Supports third-party speakers, and other Cisco or third-party collaboration peripherals via PoE, USB, and analogue ports • Supports Wi-Fi and Bluetooth® - Not available on Non Radio Version* • Optimized for pairing with the Cisco Room Navigator touch panel to control the video conference, control room peripherals, add smart room booking, and run third-party workspace management applications
Built for cloud and premises	• Unified management, provisioning, monitoring, troubleshooting, analytics, and workspace insights in Control Hub • Flexibility to register on-premises or in the Webex Cloud • Hardware is optimized to run on a cloud platform for great experiences in shared rooms and spaces with easy access to hosted conferences • Secure management, with end-to-end encryption when using Webex

Cisco Room Kit EQ prominent features and differentiators

Recognized in the best meeting room solution in the UC Awards, the Cisco Room Kit EQ is the most advanced collaboration bundle, bringing more intelligence, usability, and equal meeting experiences to your large rooms. Video-enable your conference rooms and large workspaces at scale with a collaboration kit that's easy to deploy, engaging to use, and more affordable to maintain—creating a connected, intelligent workplace.

- **Equitable meetings:** Powerful, multi-lens camera delivers intelligent camera views and optimized layout composition. AI noise removal reduces unwanted background noise while virtual meeting zone help to remove distractions from video meetings. Support for multi-camera Cross-view and Extended Speaker view for cinematic meeting experiences.
- **Stunning presentations:** Triple screen support, 4K wired and wireless content sources, single-cable USB passthrough for instant BYOD and content share; AI PresenterTrack and multi-camera scenarios with the Room Kit EQ Vision PTZ bundle or by connecting with other Cisco tracking cameras. It supports the Presenter and Audience view setup to enable inclusive hybrid presentations and learning sessions.
- **Multi-platform video conferencing:** The device can be configured to run on Cisco Rooms for native Webex meetings and powerful third-party interoperability with Microsoft Teams, Zoom, and Google Meet; or deployed as a native Microsoft Teams Rooms system.
- **Intelligent workspaces:** Presence detection for automatic "wake-up" when someone enters the room; people count for usage metrics and resource allocation; intuitive touch and voice controls for a better workspace experience; built-in environmental sensors in Room Navigator to promote safety and well-being; APIs and macros allow meeting and workspace customization.
- **Flexible integration:** The Codec EQ allows for integrating with multiple cameras, microphones and audio systems, touch controllers, external displays and other peripherals to solve custom conferencing scenarios.

Figure 3. The Cisco Room Kit EQ combined with a Cisco Ceiling Microphone Pro and two Cisco Room Vision PTZ cameras to enable the cinematic Cross-view experience.

Figure 4. Cisco Room Kit EQ in a medium meeting room combined with an IP-based Cisco Room Vision PTZ tracking camera and Table Microphone Pro units.

An affordable way to purchase hardware

Cisco Hardware as a Service provides a new way to purchase hardware with a simple, scalable, and flexible way to pay. Stay up to date with the latest models of IP phones and collaboration devices to enhance collaboration and create workspaces for the future. And get ready for all the power of Cisco's unified cloud platform! Click here to access the Cisco Hardware as a Service data sheet.

Product specifications

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Platform compatibility	• RoomOS 11.1.2 and later (for native Webex meetings and video interoperability for Microsoft Teams, Zoom, and Google Meet) • Microsoft Teams Rooms on Android (also featuring native Webex meetings when registered in Control Hub)
Available solution bundles and main offers	• Cisco Room Kit EQ (featuring the Cisco Quad Camera) • Cisco Room Kit EQ Vision PTZ (featuring the Cisco Room Vision PTZ) • Cisco Room Kit EQ PTZ 4K (featuring the Cisco PTZ 4K Camera) • Cisco Codec EQ Standalone
Default components	• Cisco Codec EQ • Cisco Quad Camera (First Light or Carbon Black), the Cisco Room Vision PTZ (Arctic White or Carbon Black) or the Cisco PTZ 4K Camera • Wall mount (for Quad Camera) • Power adapter (for Quad Camera) • Region-specific power cord • Selection of one Cisco Room Navigator touch controller (Table-Stand- or Wall-Mount)
Optional hardware components	• Cisco Room Vision PTZ - Arctic White • Cisco Room Vision PTZ - Carbon Black • Cisco PTZ 4K Camera • Cisco Precision 60 Camera • Cisco Room Navigator Table-Stand, First Light (additional unit) • Cisco Room Navigator Wall-Mount, First Light (additional unit) • Cisco Room Navigator Table-Stand, Carbon Black (additional unit) • Cisco Room Navigator Wall-Mount, Carbon Black (additional unit) • Cisco Table Microphone • Cisco Ceiling Microphone • Cisco Table Microphone Pro - First Light • Cisco Table Microphone Pro - Carbon Black • Cisco Ceiling Microphone Pro - Arctic White • Cisco Ceiling Microphone Pro - Carbon Black • Wall mount for Cisco Codec EQ • Rack ears for Cisco Codec EQ • Cisco Active USB-C Cable, 9m • Cisco Multi-head Cable 4K • Cisco Catalyst C1200 Switch, PoE • Other cable, mount and peripheral options (see Ordering information)

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Camera overview – Quad Camera	• 4x CMOS image sensors with machine intelligent switching (up to 20MP resolution per sensor) • The camera generates frames from the 4 sensors simultaneously to provide a single HD output at 1080p • Video standard: Video over HDMI • Camera control: Ethernet (LAN) • Support up to 60 fps • 1/1.7 CMOS • 7x zoom (5x native optical zoom with digital zoom enhancement) • f/2.0 aperture • 83° horizontal field of view on wide lens • 50° horizontal field of view on 3 tele-lenses • Automatic group framing (audio + face detect) • Speaker tracking • Frames camera mode: intelligent people framing for equitable views • 5056 x 3888 pixel resolution • Auto focus, brightness, and white balance • Focus distance 1 m to infinity • Support for meeting zones to only frame people within the defined perimeters in the room and exclude passers-by in glass-walled and open areas.
Camera overview – PTZ 4K Camera	• 1920 x 1080 at 60 fps/3840 x 2160 at 30 fps resolution • Zoom 240x total (20x optical zoom, 12x digital zoom) • Pan and tilt (used for manual camera control and presets) • - Pan range: +/- 170 degrees • - Tilt range: -20 degrees to +90 degrees • Horizontal FoV: 70 degrees • 1.0 m to infinity (wide) focus distance • F-value: 2.0 – 3.8 • Camera control: Visca over IP (LAN port) • Focus, white balance, and brightness: Manual or automatic • Video interface/standard: Video over HDMI 2.0 • Support for PresenterTrack (with digital cropping) • Power: • - 12V/3A • - 100 to 120/200 to 240 VAC, 50/60 Hz • - PoE+ (IEEE802.3at compatible) • Must be used with power supply FSP040-RHAN3, Phihong POE29U-1AT(PL), or Microsemi PD-9001GR/AT/AC • Available with wall mount and upside-down ceiling mount

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Camera overview – Room Vision PTZ	• 1920 x 1080 at 60 fps/3840 x 2160 at 30 fps resolution • Zoom 60x total (12x optical zoom, 5x digital zoom) • Pan and tilt (used for automated PresenterTrack, manual controls, and presets) • – Pan range: +/– 170 degrees • – Tilt range: –25 degrees to +90 degrees • Horizontal FoV: 80.5° • 1.0 m to infinity (wide) focus distance • F-value: 1.8 – 3.6 • Camera control: IP (LAN port) • Focus, white balance, and brightness: Manual or automatic • Video standard: Video over IP or HDMI • Video interface: HDMI 2.0, RTSP Streaming • Power: • – 42.5–57 V / 0.5–0.4 A • – PoE+ (IEEE802.3at compatible, Type 2) • Network interfaces: One LAN/Ethernet (RJ45) 100/1000 Mbit • Available with wall mount (for Ethernet only deployments) or combined wall and ceiling mount (for HDMI and IP deployments) • PresenterTrack configuration wizard • Available in Arctic White or Carbon Black
Bandwidth	• Up to 20 Mbps • Minimum bandwidth: – 720p30 from 768 kbps – 720p60 from 1152 kbps – 1080p30 from 1472 kbps – 1080p60 from 2560 kbps
Minimum bandwidth for resolution/frame rate	• 1920 x 1080 at 60 fps from 2560 kbps
Firewall traversal	• Cisco Expressway™ technology • H.460.18, H.460.19 firewall traversal
Video standards	• H.264, H.265, H.263, AV1

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Video inputs	• 1x USB-C input supports formats up to maximum 3840 x 2160 at 30 fps (USB-C is USB 3.2 gen1 compliant and supports USB 2.0 and 3.0 speeds up to 5 Gbps) • 3x HDMI inputs support formats up to maximum 3840 x 2160 at 30 fps including 1920 x 1080 at 60 fps; support for HDCP 1.4 on 1x HDMI input • 4x PoE++ (1 Gb) Ethernet ports supporting up to 3x video over IP streams at 1920 x 1080 at 60 fps or 1x video over IP stream at 3840 x 2160 at 30 fps • Extended Display Identification Data (EDID) • Consumer Electronics Control (CEC) 2.0
Video outputs	• 3x HDMI outputs support formats up to 3840 x 2160 at 60 fps • Consumer Electronics Control (CEC) 2.0 • Connectivity with an interactive touch screen via HDMI out and USB-A
Encode and decode	• Main video: 1920 x 1080 at 60 fps • Presentation channel: 3840 x 2160 at 15 fps
USB passthrough	• 1x USB 3.2 gen1, supporting a maximum of 5 Gbps • Ability to provide camera, microphone, and speakers over one USB-C cable to a connected computer • USB-C passthrough and content sharing with the same cable • Extension of display (3840 x 2160 at 30 fps) - computer must support Alt-mode Display Port • USB-C port has a maximum power output of 15W
Audio standards	• G.711, G.722, G.722.1, G.729, AAC-LD, and Opus
Audio features	• High-quality 20kHz full-band audio • Prepared for inductive loop (line out) • Acoustic Echo Cancellation (AEC) • Active Lip Synchronization • AI-Powered, Adaptive Noise Removal • Automatic Gain Control (AGC) • Full Duplex • Self-Hear • Ultrasound Technology • The full Audio API and Audio Console application for advanced audio setup and customizations with the Codec EQ can be unlocked with an AV Integrator option key.

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Audio inputs	• 3x mini Jack analog audio input • 3x HDMI input • 1x USB-C audio input • 1x USB-A audio input • 4x PoE++ Ethernet for audio over IP • Connectivity with up to 8x Cisco IP microphones • Connectivity with third-party audio systems via AES67 (requires AV Integrator License)
Audio outputs	• 1x analog line out • 3x HDMI audio out • 1x USB-A audio out • 1x USB-C audio out • 4x PoE++ Ethernet for audio over IP • Connectivity with third-party audio systems via AES67 (requires AV Integrator License)
Loudspeakers (Quad Camera)	• High-quality loudspeaker system with a single full-range driver and dual low-frequency drivers • Frequency response: 100Hz to 20kHz • Max output level: SPL 90dB • 1 RCA output for subwoofer (Quad Camera)
Camera modes (Quad Camera)	• Group view: Automatically detects meeting participants and provides ideal group framing for the best view • Speaker view: Uses a dedicated, built-in microphone array to detect and provide a prominent view for the active speaker • Frames: Captures a condensed view of in-room participants and frames them individually or in smaller groups for equitable representation • Group and Speaker: Multistream layout providing a best overview and a focused view of the active speaker in parallel • Manual camera control with the option for presets
Video stream layouts	• Supporting available Webex video stream layouts and meeting features, including focus, grid, prominent, stack, and overlay. For more information, please consult the Webex Help Center. • People Focus helps create an optimized view of every participant in Webex meetings via smart cropping to remove excess real estate

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Speaker tracking (Quad Camera)	• 8-element built-in microphone array for accurate speaker tracking • Quad Camera can support intelligent framing and dynamic speker tracking with 7x zoom capability • For an optimal speaker-tracking experience for people joining remotely, it is recommended that the furthest in-room participant is located within less than 9 meters from the video device. Please note that the best overview (automatic group framing) camera mode can support an extended distance from the Quad Camera. • Extended Speaker view: allows for an extended camera reach beyond 9 meters by zooming on the active speaker and providing an optimal view in very long conference rooms to provide a close-up view of the furthest speaker in the room. Requires the combined deployment of the Room Kit EQ, an additional Cisco pan-tilt-zoom camera, and Cisco IP microphones for the extended, directional voice capture range. • Cross-view: Using Room Kit EQ with the Quad Camera combined with two additional cameras installed on the sidewalls to provide AI-directed, cinematic cross-view of in-room conversations happening across the table. Available with additional Cisco tracking cameras and IP microphones.
Presenter tracking	• PresenterTrack is available with the Room Vision PTZ camera (featuring motorized pan-tilt, advanced optical zoom, wide field of view, and embedded AI head detection), the Cisco PTZ 4K Camera (using digital cropping), or the Precision 60 Camera (using digital cropping) • AI-powered head detection capability • Camera automatically follows the active presenter within a defined zone and helps ensure an optimized view • Presenter and Audience view: intelligent framing and dynamic switching can be enabled with a combination of the Quad Camera bar and a Cisco PTZ camera • Smart PresenterTrack configuration wizard (available with the Room Vision PTZ)
Content stream	• H.239 (H.323) dual stream • Binary Floor Control Protocol (BFCP) (SIP) dual stream • Support resolutions up to 3840 x 2160 at 15 fps and 1920 x 1080 at 60 fps

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Wireless sharing	• Webex App (up to 3840 x 2160 at 7.5 fps, including up to 1920 x 1080 at 30 fps) • Miracast (1920 x 1080 at 60 fps) – Not available on non-radio version. • Microsoft Teams Cast (up to 1920 x 1080 at 15 fps) - Available only on Microsoft Teams Rooms • Apple AirPlay wireless sharing: – Bluetooth® discovery (not on non-radio version) and Bonjour service discovery – Screen mirroring up to 1920 x 1080 at 60 fps – Extended desktop (Mac only) - up to 1920 x 1080 at 60 fps – Video streaming up to 3840 x 2160 at 30 fps
MultiSite features (embedded multipoint) (optional upgrade)	• Adaptive SIP/H.323 MultiSite: – 3-way resolution up to 1080p30 plus content up to 4Kp15 – 4-way resolution up to 720p30 plus content up to 4Kp15 – 5-way resolution up to 720p30 plus content up to 4Kp15 • Full individual audio and video transcoding • H.323/SIP/VoIP in the same conference • Support for presentation (H.239/BFCP) from any participant at resolutions up to 3840 x 2160 at 15 fps • Best Impression (automatic continuous presence layouts) • Encryption and dual stream from any site
Protocols	• H.323 • SIP • Webex • WebRTC
Embedded encryption	• H.323 and SIP point-to-point • Standards-based: H.235 v3 and Advanced Encryption Standard (AES) • Automatic key generation and exchange

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
IP network features	• DNS lookup for service configuration • Differentiated services (Quality of Service [QoS]) • IP-adaptive bandwidth management (including flow control) • Automatic gatekeeper discovery • Dynamic playout and lip-sync buffering • H.245 Dual-Tone Multi-Frequency (DTMF) tones in H.323 • RFC 4733 DTMF tones in SIP • Date and time support using Network Time Protocol (NTP) • Uniform Resource Identifier (URI) dialing • Dynamic Host Configuration Protocol (DHCP) • 802.1X network authentication • 802.1Q Virtual LAN • 802.1p [QoS and Class of Service (CoS)] • Cisco Media Assure and ClearPath, including packet loss-based downspeeding
Call control	• Native registration on Cisco Unified Communications Manager (CUCM) – Requires CUCM version 12.5 or later with device pack for Room Kit EQ • Native registration with Cisco Expressway • Webex • Third-party H.323 Gatekeepers and standards-based SIP proxies
IPv6 network support	• Single call stack support for both H.323 and SIP • Dual-stack IPv4 and IPv6 for DHCP, SSH, HTTP, HTTPS, DNS, DiffServ • Support for both static and automatic IP configuration (stateless address auto configuration)
Security features	• Secure management using HTTPS and SSH protocols • End-to-end encryption for calls and meetings on Webex • Standards-based media encryption on all back-ends (Secure Real-time Transport Protocol [SRTP], using AES-128-GCM or AES-256-GCM) • WPA3™ and WPA3-Enterprise with CCMP128 Wi-Fi ® security • Password protection to access administration available on Room Navigator controller • Network settings protection

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Certificate management	• Certificate Authority Proxy Function (CAPF) support for additional security • Manufacturer-Installed Certificates (MIC) • Locally Significant Certificates (LSC) • X.509 Digital Certificates (DER encoded binary); both DER and Base-64 formats are acceptable for the client and server certificates; certificates with a key size of 1024, 2048, and 4096 are supported
Other interfaces	• 4x USB-A 3.0 ports, up to 1.5A charging capability per port. Supporting connectivity for external USB cameras, microphones, keyboards, headsets, touch display, and other peripherals. • Bluetooth® and Bluetooth® Low Energy* - Not available in Non-Radio Versions • Micro USB port (for service) • Factory reset pinhole
Network interfaces (Codec EQ)	• Ethernet (RJ-45) 10/100/1000 for LAN • 4x PoE++ (802.3.bt) Ethernet (RJ-45) 10/100/1000 with a total power budget of up to 90W for – Camera control and powering – Room Navigator touch controller – AV over IP room peripherals (including Cisco AV over IP microphones and cameras) • Wi-Fi 802.11a/b/g/n/ac/ax 2.4 GHz, 5 GHz, 6GHz also supported for LAN. Wi-Fi 6E support - Not available in non-radio versions • 2x2 Multiple Input and Multiple Output (MIMO) **Note:** Due to compliance regulations, it is required that 802.11d is enabled in the access point for the product to operate properly within 5725 to 5875 MHz. Using a Wi-Fi connection is a flexible option; however, an Ethernet connection is always preferred for high performance.
Power supplies	• 100 to 240 VAC, 50/60 Hz input • Room Kit EQ power consumption: • In active meeting: 18W • Idle: 18W • Display off standby: 15W • Quad Camera must be used with power supply PSU-12VDC-70W-GR= • PTZ 4K Camera power supply (PSU-12VDC-40W2=) is optional
Operating temperature and humidity	• Quad Camera: 0°C to 35°C (32°F to 95°F) ambient temperature • Room Navigator: 0°C to 40°C (32°F to 104°F) ambient temperature • Codec EQ: 0°C to 40°C (32°F to 104°F) ambient temperature • 10% to 90% Relative Humidity (RH)

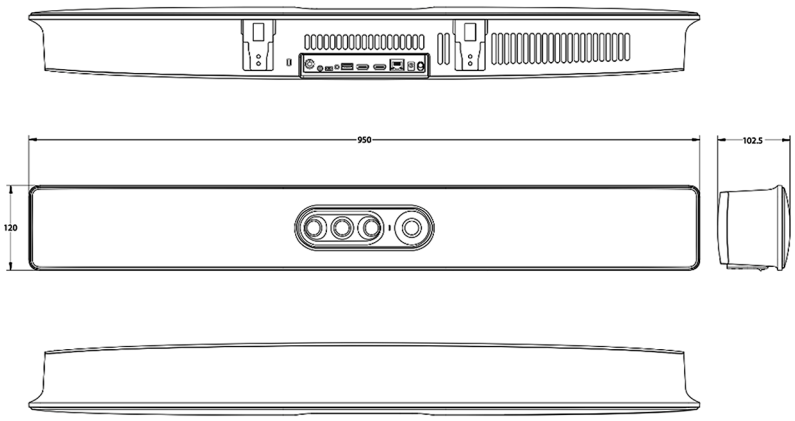

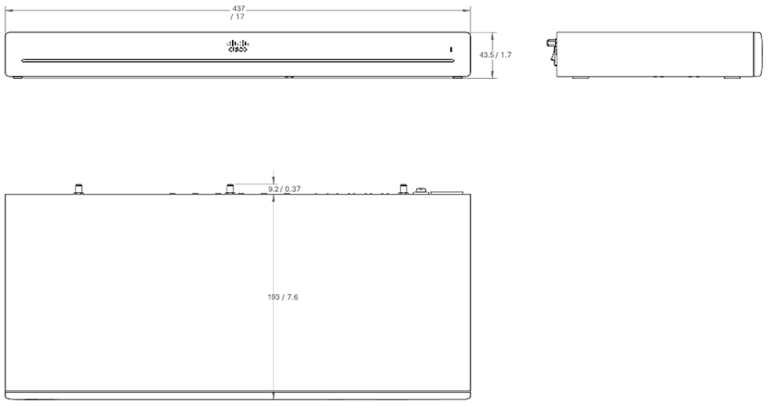

© 2026 Cisco and/or its affiliates. All rights reserved.

Table 1. Specifications

SPECIFICATION	DESCRIPTION
Storage and transport temperature	• -20°C to 60°C (-4°F to 140°F) at RH 10% to 90% (noncondensing)
Locking mechanism	• Kensington security lock (on Codec EQ)
Language support	• Arabic, Czech, Danish, German, US English, UK English, Catalonian, Spanish, Latin-American Spanish, Finnish, French, Canadian French, Hebrew, Hungarian, Italian, Japanese, Korean, Dutch, Norwegian, Polish, Brazilian Portuguese, Portuguese, Russian, Swedish, Turkish, Chinese (Simplified), Traditional Chinese, Ukrainian
Form factor	• Cisco Quad Camera color options in First Light and Carbon Black • The Quad Camera mounting options support placement above/underneath the screen(s) or can be mounted to a wall. • Codec EQ supports wall mounting, rack ear mounting, and custom placement as a free-standing unit.
Verified third-party displays	• Cisco verified displays from leading technology partners have been tested for compatibility and robustness of their video interfaces, optical characteristics, and basic security practices. When connected to a Cisco collaboration device they automatically reconfigure with the verified optimal configuration. Learn more about the verified displays that have been verified to work with Cisco collaboration devices.

Warranty information

Cisco Room Kit EQ has a 90-day limited liability warranty.

Cisco environmental sustainability

Information about Cisco's environmental sustainability policies and initiatives for our products, solutions, operations, and extended operations or supply chain is provided in the "Environment Sustainability" section of Cisco's Corporate Social Responsibility (CSR) Report.

Reference links to information about key environmental sustainability topics (mentioned in the "Environment Sustainability" section of the CSR Report) are provided in the following table:

SUSTAINABILITY TOPIC	REFERENCE
Information on product material content laws and regulations	Materials
Information on electronic waste laws and regulations, including products, batteries, and packaging	WEEE compliance

Cisco makes the packaging data available for informational purposes only. It may not reflect the most current legal developments, and Cisco does not represent, warrant, or guarantee that it is complete, accurate, or up to date. This information is subject to change without notice.

Cisco Services

Get faster results with expert guidance

Cisco Professional Services provide industry-leading expertise to help you plan, design, implement, and optimize your technology. So you can drive better outcomes from the start and get more value – faster.

Cisco Support, powered by Cisco IQ, helps you prevent issues before they happen. You get automated recommendations, early risk detection, and an always-current view of every asset, software version, and configuration across your environment. But we know a list isn't enough. Cisco IQ also instantly analyzes this data and summarizes the most critical observations. So your teams can focus on what matters most.

Explore Cisco Services

Cisco Capital

Flexible payment solutions to help you achieve your objectives

Cisco Capital makes it easier to get the right technology to achieve your objectives, enable business transformation and help you stay competitive. We can help you reduce the total cost of ownership, conserve capital, and accelerate growth. In more than 100 countries, our flexible payment solutions can help you acquire hardware, software, services and complementary third-party equipment in easy, predictable payments. Learn more.
