Ultra High Speed HDMI™ Cables by Cisco® enable your team to explore uncompromising bandwidth, pristine 8K audiovisual signal clarity, long reach, and enterprise-grade cloud management with a new generation of High-Definition Multimedia Interface (HDMI)*-enabled conferencing cables. These high-performing room accessories excel by streamlining AV installation, simplifying the integration of displays, cameras, and other peripherals, and allow for reliable content sharing for your teams.

Product overview

Build powerful, video-enabled meeting spaces without hardware complexity or sacrificing reliability—all through carefully engineered HDMI connections. These new conferencing cables deliver the promise of HDMI 2.1 standard while maintaining consistent signal transmission.

Enable end users to share high-resolution content with no extra steps, signal loss, or moments of uncertainty. Use them to connect a laptop for engaging presentations in huddle rooms, at conference tables, or across larger, more dynamic collaboration spaces.

Featuring up to 20-meter (65.6-foot) reach and active optical design in longer models, these cables help you connect displays, cameras, and content sources at larger distances without extender-clutter and extra power sources—reducing failure points and support overhead. Their slim, durable design makes it easy to route HDMI behind displays, through ceilings, or under tables. By replacing multiple hardware components with a single run, you can ease systems integration and enable a remarkably clean setup while ensuring a stable AV environment for large-scale deployments.

Product specifications

Table 1. Product specifications

FEATURE	ULTRA HIGH SPEED HDMI CABLE BY CISCO	ULTRA HIGH SPEED HDMI CABLES BY CISCO – ACTIVE OPTICAL CABLES
Description	2m Ultra High Speed HDMI Cable	4m, 9m, and 20m Ultra High Speed HDMI Cable (Active Optical)
Product compatibility	• Cisco Desk Series • Cisco Board Series • Cisco Room Series • Compatible with non-Cisco devices	• Cisco Desk Series • Cisco Board Series • Cisco Room Series • Compatible with non-Cisco devices
Color	Gray	Gray
HDMI standard	As specified by HDMI 2.1b	As specified by HDMI 2.1b
Bandwidth	Up to 48 Gbps	Up to 48 Gbps
Orientation	Bi-directional	Monodirectional (source - sink)
Interface	HDMI to HDMI	HDMI to HDMI
Resolution	Maximum resolution 8K UHD (7680 × 4320) @60fps	Maximum resolution 8K UHD (7680 × 4320) @60fps
Cable dimensions	2m (6.6 ft)	4m (13 ft), 9m (29.5 ft), and 20m (65.6 ft)
Diameter	5.8mm	6mm
Cable ID	Supported to detect cable type and daisy chaining	Supported to detect cable type, wrong cable orientation, and daisy chaining
Management	Visibility and monitoring of the cable in Control Hub when connecting the video system with a display	Visibility and monitoring of the cable in Control Hub when connecting the video system with a display
Shielding	Electromagnetic Interference (EMI)/Radio Frequency Interference (RFI) immune	Electromagnetic Interference (EMI)/Radio Frequency Interference (RFI) immune
Bend radius	60mm near the connectors, 30mm elsewhere	60mm near the connectors, 30mm elsewhere

Cisco Service and Support

Cisco Services make networks, applications, and the people who use them work better together.

Today, the network is a strategic platform in a world that demands better integration among people, information, and ideas. The network works better when services, together with products, create solutions aligned with business needs and opportunities.

The unique Cisco lifecycle approach to services defines the requisite activities at each phase of the network lifecycle to help ensure service excellence. With a collaborative delivery methodology that joins the forces of Cisco, our skilled network of partners, and our customers, we can achieve the best results.

Cisco Capital

Flexible payment options make it easier than ever to get the Cisco technology you need

Cisco Capital® delivers leading-edge payment solutions, allowing you to stay focused on what's most important—your business. We can help you drive business outcomes, accelerate innovation and digital transformation, and adapt to market dynamics faster with flexible payment options tailored to your specific business needs. Reduce the total cost of ownership, conserve capital, and accelerate growth. We help you realize the full benefits of Cisco technology today, and in the future, and pay for it in the way that best suits your business requirements. Whether you are looking for a pay-as-you consume model, or need to bundle Cisco hardware, software, services, subscriptions and third-party solutions, learn more about how Cisco Capital can help.
