Overview

EOL15967 - Amended

Cisco announces the end-of-sale and end-of-life dates for the Cisco UCS C885A M8 Rack Servers with AMD MI350X GPUs. The last day to order the affected product(s) is October 15, 2026. Customers with active service contracts will continue to receive support from the Cisco Technical Assistance Center (TAC) as shown in Table 1 of the EoL bulletin. Table 1 describes the end-of-life milestones, definitions, and dates for the affected product(s). Table 2 lists the product part numbers affected by this announcement. For customers with active and paid service and support contracts, support will be available under the terms and conditions of customers' service contract.

End-of-life milestones

Table 1. End-of-life milestones and dates for the Cisco UCS C885A M8 Rack Servers with AMD MI350X GPUs

Milestone	Definition	Date
End-of-Life Announcement Date	The date the document that announces the end-of-sale and end-of-life of a product is distributed to the general public.	August 4, 2026
End-of-Sale Date: HW	The last date to order the product through Cisco point-of-sale mechanisms. The product is no longer for sale after this date.	October 15, 2026
Last Ship Date: HW	The last-possible ship date that can be requested of Cisco and/or its contract manufacturers. Actual ship date is dependent on lead time.	January 15, 2027
End of SW Maintenance Releases Date: HW	The last date that Cisco Engineering may release any final software maintenance releases or bug fixes. After this date, Cisco Engineering will no longer develop, repair, maintain, or test the product software.	October 15, 2027
End of Vulnerability/Security Support: HW	The last date that Cisco Engineering may release a planned maintenance release or scheduled software remedy for a security vulnerability issue.	October 31, 2029
End of Routine Failure Analysis Date: HW	The last-possible date a routine failure analysis may be performed to determine the cause of hardware product failure or defect.	October 15, 2027
End of New Service Attachment Date: HW	For equipment and software that is not covered by a service-and-support contract, this is the last date to order a new service-and-support contract or add the equipment and/or software to an existing service-and-support contract.	October 15, 2027
End of Service Contract Renewal Date: HW	The last date to extend or renew a service contract for the product.	January 15, 2029
Last Date of Support: HW	The last date to receive applicable service and support for the product as entitled by active service contracts or by warranty terms and conditions. After this date, all support services for the product are unavailable, and the product becomes obsolete.	October 31, 2029

HW = Hardware OS SW = Operating System Software App. SW = Application Software

Product Migration Options

As part of our product lifecycle management, the AMD MI350X GPU-based offerings are being transitioned out of the portfolio. Customers evaluating or planning deployments with this platform are encouraged to migrate to Cisco's latest accelerated computing solution, delivering enhanced AI performance, scalability, and operational efficiency. Customers considering AMD MI350X-based deployments should evaluate transitioning into the Cisco UCS C845A to benefit from next-generation performance and long-term architectural scalability. The Cisco UCS C845A platform, powered by AMD Instinct™ MI350P GPUs, and AMD Pensando Pollara 400G NIC leverages the cutting-edge AMD CDNA™ 4 architecture to deliver a significant leap in computational power, specifically engineered to handle the most demanding generative AI and high-performance computing (HPC) workloads. The platform provides enhanced AI training and inference performance, high-bandwidth HBM3E memory, an open enterprise-ready ROCm™ software stack, and simplified deployment within existing infrastructure. By transitioning to this platform, organizations gain a robust, scalable foundation that is purpose-built to evolve alongside the rapidly changing landscape of AI and HPC, ensuring long-term investment protection and sustained performance gains.
