How can I view my device consumption, in Cisco License Central (CLC)?

Introduction

This document outlines a step-by-step guide on how to view your device's commercial consumption in Cisco License Central (CLC).

Video

The purpose of this content is to share information for educational and/or informational use. You may choose to watch the video or read the content below-both provide the same material, so feel free to engage with whichever format you prefer.

Prerequisites

Before you start, ensure that you have the following:

- An active Cisco.com account
- User, Viewer or Admin Access to the Smart or Virtual Account
- Registered devices in the Smart Account

Steps

Step 1: Log in to Cisco Software Central and click Access Cisco License Central.

Step 2: Enter the name of your Smart Account or use the search function to locate the appropriate Smart Account.

Step 3: From the left navigation menu, go to *Devices* and select *Device Inventory*

Step 4: Click on the *Device Name* hyperlink and go to the *Licensing* tab to drill down for more details.

Troubleshooting

For additional support, visit the Cisco Support Case Manager and select *Create New Case*. Follow the prompts to receive guided, expert support.
