New and changed information

This table provides an overview of the significant changes to the organization and features in this guide from the release in which the guide was first published to the current release. The table does not provide an exhaustive list of all changes made to the guide.

Table 1: Latest updates

Release	New Feature or Update	Where Documented
4.2.1	Support for M8-based large appliance (`ND-NODE-G5L`).	Beginning in this release, support has been introduced for the `ND-NODE-G5L` large-size appliance powered by Cisco UCS M8 technology available in 3-node cluster deployments for higher density scale, and performance.
4.2.1	Support for deploying virtual Nexus Dashboard (vNDs) on Nutanix Hyperconverged Infrastructure (HCI).	Beginning in this release, you can now deploy virtual Nexus Dashboard (vNDs) on Nutanix Hyperconverged Infrastructure (HCI). For more information, see Deploying a Virtual Nexus Dashboard (vND) in Nutanix.
