Cross-Version Firmware Support

Note The three-part version number format, such as 4.3(6) or 6.0(1), represents a general version series. For example, 4.3(6) indicates all firmware versions that start with 4.3(6), encompassing detailed subversions such as 4.3(6.260058) and 4.3(6.260054). Similarly, 6.0(1) indicates all firmware versions that start with 6.0(1), encompassing detailed subversions such as 6.0(1.260003) and 6.0(1.250127). For detailed information about specific firmware versions and their equivalencies across Cisco Intersight, Cisco Integrated Management Controller (Cisco IMC), and Cisco UCS Manager, see the Cisco UCS Equivalency Matrix.
