

Preface

This preface describes this guide and provides information about the conventions used in this guide, and related documentation.

It includes the following sections:

- About this Guide, on page i
- Conventions, on page i
- Related Documentation, on page ii
- Communications, Services, and Additional Information, on page ii
- Cisco Bug Search Tool, on page ii
- Cisco Documentation Feedback, on page ii

About this Guide

This guide provides Cisco antenna mounting instructions.

Conventions

This document uses the following conventions for notes, cautions, and safety warnings. Notes and cautions contain important information that you should know.

Note Means *reader take note*. Notes contain helpful suggestions or references to material not covered in the manual.

Caution Means *reader be careful*. Cautions contain information about something you might do that could result in equipment damage or loss of data.

Warning Safety warnings appear throughout this guide in procedures that, if performed incorrectly, can cause physical injuries. A warning symbol precedes each warning statement.

Related Documentation

- For information about the Cisco Catalyst 9130AX Access Points, see:
- Cisco Catalyst 9130AX AP Getting Started Guide
- Cisco Catalyst 9130AX AP Datasheet
- Cisco Catalyst 9130AX AP Deployment Guide
- For all Cisco Catalyst 9130AX AP software related documentation, see:

Communications, Services, and Additional Information

- To receive timely, relevant information from Cisco, sign up at Cisco Profile Manager.
- To get the business impact you're looking for with the technologies that matter, visit Cisco Services.
- To submit a service request, visit Cisco Support.
- To discover and browse secure, validated enterprise-class apps, products, solutions and services, visit Cisco Marketplace.
- To obtain general networking, training, and certification titles, visit Cisco Press.
- To find warranty information for a specific product or product family, access Cisco Warranty Finder.

Cisco Bug Search Tool

Cisco Bug Search Tool (BST) is a web-based tool that acts as a gateway to the Cisco bug tracking system that maintains a comprehensive list of defects and vulnerabilities in Cisco products and software. BST provides you with detailed defect information about your products and software.

Cisco Documentation Feedback

To provide feedback about Cisco technical documentation, use the feedback form available in the right pane of every online document.
