# What's New in this Release

### Cisco Spaces Dashboard

The following new feature is introduced in the Cisco Spaces dashboard:

Cisco Spaces dashboard now supports **Split Licensing**.

The accounts that are registered with Smart Licensing include an option to upgrade or downgrade the license type at each location level. Use the **License Level Change** option available in the **Location Hierarchy** window.

**Note** To use **Split Licensing**, accounts must be registered with Smart Licensing.

# What's Changed in this Release

### Cisco Spaces Dashboard

The following enhancements are made in the Cisco Spaces dashboard.

**Location-Based RBAC**

Role-based Access Control (RBAC) is now enhanced to support specific locations. Use the **Restrict this role to specific locations** option to support specific locations while creating a role (**Admin Management** > **Roles** > **Create Role**) and inviting user flows (**Admin Management** > **Invite Admin**).

**Profile**

The **User Profile** feature is enhanced to include the **View Change Log** option. Click **View Change Log** to open the **Change Log** tab that displays the activity details of all the users in a particular account.

### Firehose

The IoT Telemetry event in Firehose is enhanced to include the following three additional fields for Bluetooth Low Energy (BLE) devices:

- **Vendor**: The vendor ID when the device is claimed.
- **DeviceModel**: The model of the BLE device.
- **UniqueId**: The unique ID of the device.

These fields carry specific values after the beacons are claimed.

# Issues

Issues describe unexpected behavior in the Cisco Spaces application. The Resolved Issues and Open Issues sections list the issues in this release.

The following information is provided for each issue:

- Identifier: Each issue is assigned a unique identifier (ID) with a pattern of CSC*xxNNNNN*, where *x* is any letter (a-z) and *N* is any number (0-9). These IDs are frequently referenced in Cisco documentation, such as Security Advisories, Field Notices, and other Cisco support documents. Cisco Technical Assistance Center (TAC) engineers or other Cisco staff can also provide you with the ID for a specific issue.
- Description: A description of what is observed when the issue occurs.

# Open Issues

This section lists the open issues in this release of Cisco Spaces.

***Table 1: Cisco Spaces Open Issues***

| Issue Identifier | Issue Description |
|---|---|
| CSCwd09396 | Page loading forever in Impact Analysis. |

# Resolved Issues

This section lists the issues that have been resolved in this release of Cisco Spaces.

***Table 2: Cisco Spaces Resolved Issues***

| Issue Identifier | Issue Description |
|---|---|
| CSCwd33465 | On clicking get app menu does not redirect to landing page on desktop/laptop |
| CSCwd42802 | Access code session duration value does not pass to controller in radius response |
| CSCwd23458 | HotspotClient - Hotspot failing to load when certificate has expired |
| CSCwd31231 | Delete user preferences and device preferences functionality is not working |

| Issue Identifier | Issue Description |
|---|---|
| CSCwd19227 | Meraki OpenRoaming - Certificate renewal process is picking invalid APIKey |
