What's New in this Release

There are no new features in this release of Cisco Spaces.

What's Changed in this Release

This release enhances the performance of Cisco Spaces by optimising backend operations, thereby improving reliability and efficiency. It also includes upgrades to platform libraries to address vulnerabilities and ensure security.

The performance enhancements include:

- Cisco Webex devices synchronization operation
- Cisco Spaces Partner App activation
- Cisco Catalyst Center floor map updates

Issues

Issues describe unexpected behavior in the Cisco Spaces application.
